

Surgery Appointments

This surgery does not distinguish between urgent and routine appointments. Instead there are a significant number of same-day appointments available each day as well as appointments that can be booked in advance.

When you ask for an appointment, you will be offered one within two working days, and usually the same day, unless you wish to see a specific doctor, in which case you may need to wait until they are next available in the surgery.

As certain days are busier than others, we would ask patients not to make appointments for a Monday morning or Friday afternoon for a regular or follow-up appointment but choose a convenient time in the middle of the week.

You can telephone for a 'same day' appointment from 8.00am on the day. This is to enable you to make any arrangements required in order to attend for the appointment promptly.

Please cancel any appointments that you are unable to attend in good time. This practice records all instances where a patient does not attend an appointment.

Home Visits

Home visits are made when a patient is too ill to come to the surgery. These visits take up a great deal of time and so this practice restricts them to only very genuine cases at the discretion of a doctor.

To ask for a visit, please call us on 506361 before 10.30am. You will be asked for your (or the patient's) name and date of birth, address, telephone number and reason for the visit. The doctor may wish to speak to you (or the patient) before visiting if any further information is necessary.

Telephone Advice

Doctors and nurses are available each day to talk to you on the telephone if you need advice on a health problem. If there is no-one immediately available at the time of your call, you will be asked to leave your telephone number and they will call you back. It is helpful to let the receptionist know what the subject of the call is so that any relevant medical records can be made available to the doctor.

GP Registrar Training And Medical Students

The practice is a Training Practice and regularly has medical students working in the practice to aid training, but patients never have to be seen by students if they do not wish to. We also occasionally have newly qualified doctors and doctors training to be a GP working in the practice.

THE STANFORD MEDICAL CENTRE

175 Preston Road

Brighton

Practice boundary

The practice boundary is shown opposite.

The practice welcomes all patients from this area, although we are only taking new patients at The Stanford Medical Centre, **Preston Road** surgery.

To register you only need to complete a short application form and a medical questionnaire and produce some form of confirmation of identity, such as a passport, driving licence or utility bill.

Patients can indicate which doctor they would prefer to see both on registration and when making an appointment.
